

Angela is a Para-professional. In her role, she assists the teachers in many aspects including data collection, classroom management, small group instruction and behavioral support.

She is no stranger to the field of Autism having spent 15 years as a paraprofessional. She has a unique body of experience, in that, she is the parent of a son on the autistic spectrum. She brings her own personal experience and perspectives to our school. Her son is 18 years old and has had great success. She is a great resource on autism which can be beneficial to many of our families. She has mentored many parents and continues to do so. She will make herself available in this capacity as needed.
